

I listen almost exclusively to K-LOVE at 94.3 FM because it is the only non-commercial, uplifting, positive programming available in the Broadview, IL area. Since K-LOVE avoids all negative, degrading comments and music, it keeps me in touch with the better aspects of life. If K-LOVE were replaced by an LPFM station providing other programming, our residents would not have this inspiring type of radio to encourage them. Furthermore, K-LOVE's "clean" programming tends to promote growth toward better citizenship, so it I feel it is definitely in the public interest to keep it on the air.
